

TAMER A. SECKIN, M.D., F.A.C.O.G., A.C.G.E.
872 Fifth Avenue, New York, New York 10065
212-988-1444

HOSPITAL AFFILIATION

September 1995 – Present
Department of Obstetrics & Gynecology
Lenox Hill Hospital

EDUCATION

Hacettepe University School of Medicine
Ankara, Turkey
Medical Doctor, MD, **July 1978**

July 1978-1980
Hacettepe University School of Medicine
Ankara, Turkey
Resident, Obstetrics & Gynecology

August-December 1980
SUNY at Buffalo
Research Fellowship, Gynecologic Oncology

Jan-July 1981
SUNY at Buffalo
Resident, Vascular Surgery,
Buffalo, New York

June 1981-1982
Sisters Hospital
Resident, Obstetrics & Gynecology,
Buffalo, New York

June 1982-1985
Buffalo Children's Hospital
Resident, Obstetrics & Gynecology
Buffalo, New York

ACADEMIC APPOINTMENTS

September 1995-Present
Department of Obstetrics & Gynecology Clinical Instructor
Lenox Hill Hospital

January 2002-September 1995
Chief of Department of Obstetrics & Gynecology
Kingsbrook Jewish Medical Center

January 2012 - 2013
AAGL-Minimally Invasive Gynecologic Surgery Fellowship at Lenox Hill Hospital,
Co-Director

CERTIFICATIONS

March 1984	New York State, #157705
December 1990	Certified in Obstetrics & Gynecology by American College of Obstetricians & Gynecologists
September 1996	Certified in Advanced Operative Laparoscopy by the Accreditation Council for Gynecologic Endoscopy
December 2006	Certified as a Console Surgeon by Da Vinci Surgical System

PROFESSIONAL MEMBERSHIPS

- International Society for Gynecologic Endoscopy
Board Member, 2003-2011
- American College of Obstetrics & Gynecology, 1990-Present
- European Society of Reproductive Endocrinology
- The Society of Laparoscopic Surgeons
- The American Association of Gynecologic Laparoscopy
- New York Gynecological Society

AWARDS

May 2012 -- Super Doctors

Was selected by his peers as an outstanding practicing doctor in New York and will be listed in the New York Times Magazine

April 2012 -- Ellis Island Medal of Honor

Awarded to Americans who exemplify outstanding qualities in both their personal and professional lives, while continuing to preserve the richness of their particular heritage.

2011-2012 -- Best Doctor Award,

Elected by his peers for inclusion in Best Doctors in America

June 2009 Silver Star Award

Presented by Lenox Hill Hospital Department of Obstetrics and Gynecology

2008 Patients Choice Award

June 2006 -- President's Award by Kingsbrook Jewish Medical Center

PATENTS & TRADEMARKS

SECKIN AQUA BLUE EXCISION TECHNIQUE - SABE

Application number: 86415386

Applied to over 600 patients for recognition of early endometriosis lesions, this technique brings subtle endometriosis lesions more easily to the surgeon's attention. The Technique is simple enough to perform by all laparoscopic surgeons in order to identify lesions that are otherwise invisible with regular laparoscopic direct light. By eliminating light reflection, yellow and red bands and more significantly creating retroperitoneal contrast, Seckin Aqua Blue Technique aims to assist surgeons to visualize, and therefore more easily identify and excise endometriosis lesions completely.

Filed: January 26, 2015

SURGICAL ENDOBAG AND METHOD OF APPLICATION THEREOF

Application number: 20130138115

Abstract: An apparatus for transporting body tissue during a pelvic or peritoneal surgery through transvaginal-transdouglass route comprises a bag portion to be placed inside the body of the patient and adapted to receive body tissue to be removed during the surgery, the bag portion has an opening for tissue removal.

Type: Application

Filed: August 1, 2011

Issued: May 30, 2013

Inventor: Tamer A. Seckin

SURGICAL METHOD AND APPARATUS

Application number: 20130131457

Abstract: An apparatus for use in connection with an endoscopic surgery comprises an elongated body adapted to be placed at least partially in the vagina of a female patient partially passing through the wall of the vagina such that an end portion of said elongated element is introduced into rectouterine pouch; the elongated body comprises at least an attachment means for accommodating at least a part of at least a surgical instrument comprising an end portion adapted to be received inside the vagina, the surgical instrument and the apparatus are movable to each other. An endobag having an elongated port is provided through the vagina into the pelvis.

Type: Application

Filed: August 1, 2011

Issued: May 23, 2013

Inventor: Tamer A. Seckin

December 2009 -- Endometriosis in Translation
Launch of MIT Center for Gynepathology Research
Massachusetts Institute of Technology, Cambridge, MA

FACULTY, SPEAKER, and LIVE SURGERIES:

June 16-19, 2015

Moderator, live surgery: 11th AAGL International Congress on Minimally Invasive Gynecological Surgery in conjunction with the 15th Annual Meeting of the Israel Society of Gynecologic Endoscopy

Jerusalem, Israel

March 4-7, 2015

Faculty & Presenter: The International Society for Gynecologic Endoscopy (ISGE) 24th Annual Congress in conjunction with the Australasian Gynaecological Endoscopy and Surgery 25th Annual Scientific Meeting
"Blue Contrast Techniques for Visualizing Subtle Endometriosis, Controversy or Fact?"
Melbourne, Australia.

November 17-21, 2014

Faculty & Presenter: 43rd AAGL Global Congress of Minimally Invasive Gynecology
"Surgical Tutorial: Advanced Endometriosis Surgical Strategies"
Vancouver, British Columbia

September 20-21, 2014

Faculty & Speaker: Updates in Endometriosis
"What do Endometriosis Lesions Look Like?"
NYU Langone Medical Center, New York, NY

August 29, 2014

Live Surgery for AAGL and Surgery U

Broadcasted to 69 Countries from Lenox Hill Hospital New York

“Laparoscopic Excision of Large Bladder Endometrioma Conjoined with Uterus”

June 13-14, 2014

Video presentation: III Course “Ultrasound in Deep Endometriosis”

“From symptoms to ultrasound imaging” and “from ultrasound to surgery”

“There is more endometriosis than we can see”

Rome, Italy

April 30-May-3, 2014

Faculty & Presenter: 12th World Congress on Endometriosis

“There is more endometriosis than we can see”

Sao Paulo, Brazil

April 24-26, 2014

Video presentation: Annual Congress Middle East Society and International Society for Gynecological Endoscopy

“Spontaneous viable pregnancy after treatment of deeply infiltrating endometriosis (DIE) causing frozen pelvis and hydroureteronephrosis: a case report

Dubai, United Arab Emirates

Video presentation: Annual Congress Middle East Society and International Society for Gynecological Endoscopy

Single site ovarian suspension (SSOS), Seckin® technique, for endometriosis surgery of pelvic sidewalls and retroperitoneum

Tamer Seckin¹, [Sultan Ozkan](#)², Ali Akdemir², Serin Seckin³

Dubai, United Arab Emirates

February 21, 2014

Faculty & Speaker: The National Symposium for the Advancement of Women in STEM (Science, Technology, Engineering, Math)

Harvard University, Boston

January 18-19, 2014

Faculty & Presenter: Deep Endometriosis Symposium (Multidisciplinary Approach)

Live surgery transmitted to the general assembly

“Difficult Laparoscopic Hysterectomy with Deep Endometriosis

How to Minimize Complications during Deep Endometriosis Surgery”

Istanbul University, Istanbul Turkey

November 10-14, 2013

Faculty & Presenter: 42nd AAGL Global Congress of Minimally Invasive Gynecology

“Surgical Tutorial: Excision of Endometriosis-Laparoscopic and Robotic Debate with Michelle Nisolle”

National Harbor, MD

September 7-9, 2013

Faculty & Presenter: AAGL 2013 Xi'an Meeting 9th Xi'an National Gynecological Endoscopic Conference

Honored professorship at Xi'an Jiaotong University

Live surgery transmitted to the general assembly

“Understanding Endometriosis surgery: Stem Cells, Inflammation, Excision Procedures, Prevention of Complication”

Xi'an, China

April 24-28, 2013

Faculty & Presenter & Debater: 1st Annual MESGE Congress

“Preventing Unintended Consequences

and Complications in Deep Endometriosis

Debate: Deep Infiltrating Endometriosis: Bowel Resection vs No Resection:

with Dr. Jacques Donnez

Antalya, Turkey

December 6-7, 2012

Session Chair: 4th Annual Workshop on Video-Assisted Laparoscopy & Robotic Hysterectomy with Intensive Hands-on Laparoscopic Suturing

The Roosevelt Hotel, New York

November 5-9, 2012

Faculty & Presenter: 41st AAGL Global Congress of Minimally Invasive Gynecology

“Endometriosis: Preventing complications of Deep Endometriosis Surgery: Traps, Tips and Tricks”

Las Vegas, Nevada

April 25-28, 2012

Faculty & Presenter: VII AAGL International Congress of Minimally Invasive Gynecology in Conjunction with SACIL

“Laparoscopy Surgery for deep Infiltrating Endometriosis”

“Pathophysiology, anatomy and surgical approach of intra and retroperitoneal structures”

“Innovations in Minimally Invasive Gynecologic Surgery”

“Laparoscopic Fistulas repair after deep endometriosis surgery”

Buenos Aires, Argentina

March 28-31, 2012

Faculty Presenter: ISGE- International Society of Gynecologic Endoscopy Congress World Robotics Conference

“What is new in Endometriosis?”

Orlando, FL

December 9-11, 2011

Session Chair & Presenter: 6th AAGL International Congress on Minimally Invasive Gynecology

Endometriosis Session 3

“Re-operative Challenges in Endometriosis Surgery”

Osaka, Japan

November 6-10, 2011

Faculty & Presenter: AAGL 40th Anniversary Congress on Minimally Invasive Gynecology

Understanding Trends in Minimally Invasive Gynecology Hospital Administrator Program: "Endometriosis: a Growing Societal Issue"

Meet the Professor Roundtables: "Stem Theory & Stemness of Endometriosis: a Rationale for Excision"
